

PSYCHIC CONCLAVE

When the Aeldari commit their full psychic might, thought itself becomes ordnance. Coordinated empiric barrages shatter minds and matter alike, leaving the enemy broken before they can comprehend the assault. Such thought is not unleashed blindly. Each strike is guided by foresight and discipline, ensuring devastation is applied only where it is required and never where it is wasted. Spearheading their assaults, the Craftworlds Farseers and Warlock Conclaves act as both weapon and command directing annihilation with unerring precision.
