

ROTBOUND ASSAULT

The Death Guard siege with a toxifying efficiency, as rot spews dissolving flesh and steel alike. Slow and cancerous, the Death Guard battlements crawl towards their foes, launching blighted shells and infectious filth. A visage of disgust, these towering behemoths of disease and nausea are impervious to attack as the world withers to their corruption. Even a single rotten brother is capable of riotous putrefaction, as he sows maladies and buboes into every step he takes.

DETACHMENT RULE

PESTILENT MACHINES

Foetid miasma spills out of these machines as they crawl into battle.

Weapons equipped by **DEATH GUARD DAEMON VEHICLE** units from your army have the [SUSTAINED HITS 1] ability.

ENHANCEMENTS

ROT WITHIN - 25PTS

Foul Injections amplify the toxicity of the bulking behemoths of the Death Guard.

FOUL BLIGHTSPAWN model only - In your Command phase, you can select one friendly **DEATH GUARD DAEMON VEHICLE** model within 3" of this model. That model regains up to D3 lost wounds and, until the start of your next Command phase, each time that Vehicle model makes an attack, add 1 to the Hit roll. Each model can only be selected for this ability once per turn.

GUTTERSLIME- 20PTS

The great father bestows new blessings upon his followers.

LORD OF VIRULENCE model only - Improve the Strength, AP and Damage characteristic of Ranged weapons equipped by this model by 1.

THRASHING TYRANT - 20PTS

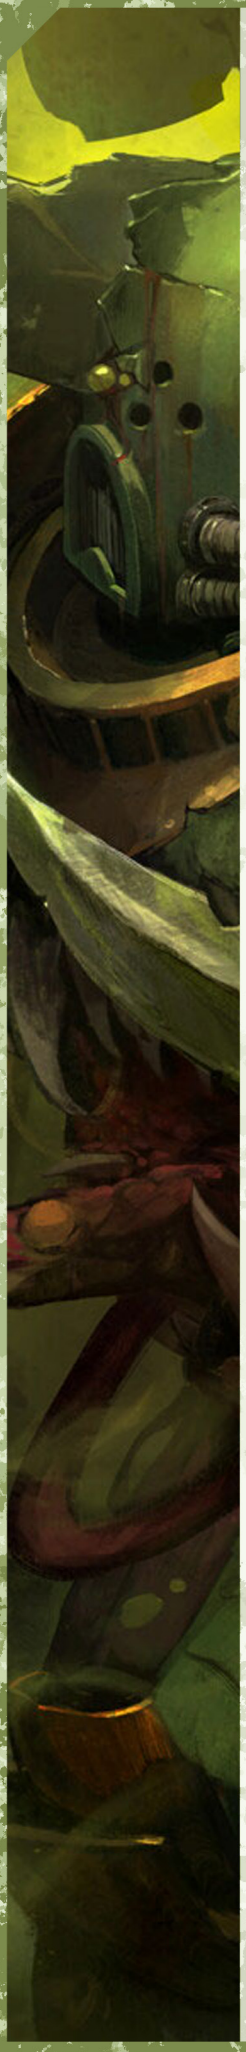

In their final moments, some members of the Death Guard become suddenly aware of what they've become.

DEATH GUARD DAEMON model only - If this model is destroyed by a melee attack, if it has not fought this phase, roll one D6: on a 2+, do not remove it from play. The destroyed model can fight after the attacking unit has finished making its attacks, and is then removed from play.

NAUSEOUS AURA - 15PTS

Disease permeates the air around this champion of rot.

DEATH GUARD model only - Each enemy unit within Engagement Range of this unit must take a Battle-shock test, and each time a Battle-shock or Leadership test is taken for an enemy unit within Engagement Range of this unit, subtract 1 from that test.
