

# SAGA OF THE SERPENT

Whilst most Space Wolves charge headstrong in battle, eager to bathe in glory and honour, there are those amongst the chapter that opt for a more deceptive approach to battle, as beasts battle on the surface, the serpent sleeps between the waves, patiently waiting for its moment to strike.

## DETACHMENT RULE

### CRASH ONTO LAND

*As soon as the foe overextends, the jaws clamp down to deliver a immobilizing blow.*

If you have not completed your Saga, **ADEPTUS ASTARTES INFANTRY** or **MOUNTED** units from your army have the Stealth ability unless the attacking model is within 18". If you have completed your Saga, each time an **ADEPTUS ASTARTES INFANTRY** or **MOUNTED** model from your army makes an attack with a ranged weapon, if the target of that attack is within 12", improve the Armour Penetration characteristic of that attack by 1.

### SAGA OF THE SERPENT

If 3 or more units were set up during the Reinforcement step of any of your Movement phases, then your Saga is completed.

## ENHANCEMENTS

### LAUGH AT DEFEAT - 15PTS

*Even in defeat they are victorious.*

### THE WORLD ENDER - 20PTS

*This relic of Fenris has a monomolecular edge.*

**SPACE WOLVES** model only - Improve the Attacks, Armour Penetration and Damage characteristic of melee weapons equipped by this model by 1.

### VENOMOUS LANDING - 20PTS

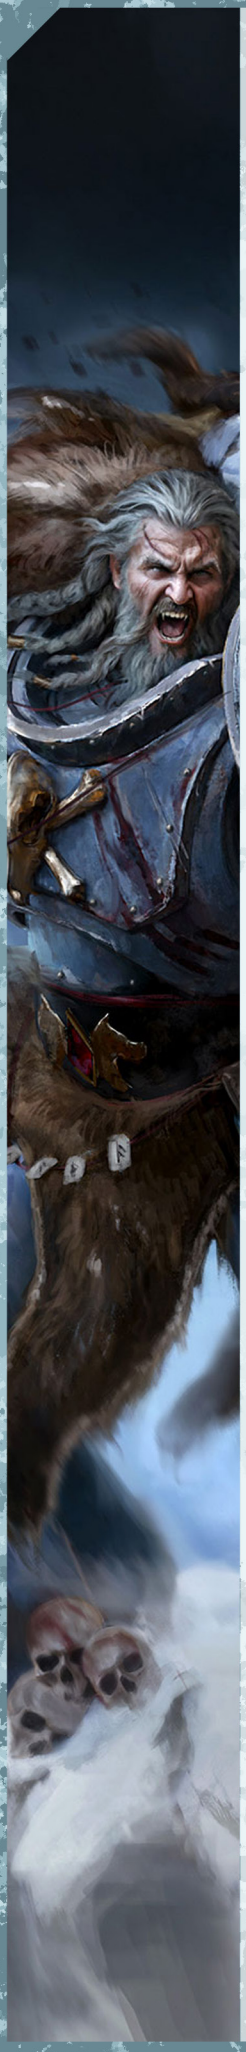

*Grav chutes ensure lethal effectiveness is ensured no matter the drop conditions.*

**ADEPTUS ASTARTES** model only - Whilst this model is leading a unit, when this unit is set up on the battlefield from Strategic Reserves, until the end of the turn, ranged weapons equipped by models in this unit have the [LETHAL HITS] ability.

### DEATH MASK OF FANGS - 10PTS

*Jade eyes pierce the souls of any who catch its gaze.*

**PHOBOS** model only - While an enemy unit is within 6" of this model, each time that unit takes a Battle-shock test, subtract 1 from that test.
